Dear customers,

Cerex Advanced Fabrics under new ownership

Cerex business has been acquired by Management and an investor group

Cerex Advanced Fabrics, Inc., the global leader in developing high performance spunbond nylon nonwoven fabrics announced today that the business has been acquired by the Management team and an investor group led by Jon S. Vesely, a Chicago-based private equity investor. Prior to the acquisition, Cerex Advanced Fabrics operated as a division of Western Nonwovens, Inc.

The new ownership group is committed to building the business and realising the long term growth opportunities that nylon based products provide in the specialty fabric marketplace.

Management structure and EU sales organization will remain the same

Cerex Advanced Fabrics will retain its existing management structure, led by Jim Walker, President and CEO. Offices and operations will continue to be headquartered in Cantonment, Florida.

Cerex continues to offer improved products and increased services

"With a new portfolio of unique spunbond nylon fabrics based on the state of the art fine denier product, "SpectraMax™" and the expanded production capacity that came on-line in 2006, CEREX is exceptionally well positioned to serve the growing needs of our customers in the specialty industrial and consumer fabric markets" said Jim Walker.

Cerex Advanced Fabrics, Inc. is the world leader in the sales, marketing and manufacturing of high performance spunbond nylon fabrics, providing innovative, engineered fabric solutions using the unique features of nylon. Cerex focuses on delivering high quality products and services to its customers and is certified under ISO 9001:2000, ISO/TS 16949, ISO/IEC 17025 and Oeko-Tex international standards.
